EXPERIENCE

Swiss Orange Group - Project and Business Analyst - Revenue Operations Aug - Oct 2026

- Translated stakeholder needs into business requirements and end-to-end quote-to-cash (Q2C) process maps for enterprise Salesforce Revenue Cloud implementations.
- Directed sprint backlogs, release milestones and project documentation in Jira and Confluence across cross-functional teams, sustaining a 100% on-time release record.
- Established Confluence knowledge bases from sales, billing and technical analysis to eliminate bottlenecks.

American Councils - Arrival Orientation Alumni Instructor - Global Programs Jul - Sep 2025

- Selected as 1 of 4 alumni leads worldwide to deliver the U.S. Department of State arrival orientation for 500+ scholars from 35 countries across 100+ program hours.
- Orchestrated arrival and departure logistics for 4 cohorts with zero schedule slippage and facilitated 15+ leadership workshops in partnership with Department of State officials and program staff.

Royal York Property Management - Talent Acquisition Specialist - Global Recruiting Aug - Oct 2024

- Drove high-volume recruitment for 50+ locations across Canada and Europe (40+ Canadian, 11 European), screening 100+ applicants weekly across 8+ departments.
- Built multi-time-zone talent pipelines through 300+ weekly LinkedIn Recruiter touchpoints.
- Standardized evaluation criteria and ATS data protocols, improving data accuracy and reducing time-to-shortlist.

AlpineFleet - Operations Manager - Logistics & Digital Marketing Sep 2022 - Feb 2023

- Co-managed cross-border dispatch for Geneva Airport transfers, auditing costs to accelerate fleet turnaround.
- Designed booking-flow prototypes in Figma and optimized the online checkout, increasing online conversion, while aligning Google Ads and Meta campaigns with real-time demand.

PROJECTS

NEJA - Founder & Product Lead - Independent Project Jun 2026 - Present

- Spearheading an events platform for Kosovo from discovery to a 2027 launch; validated the problem through a survey of 16 to 21 year olds and synthesized findings into personas and a five-pillar product concept.
- Defined go-to-market strategy and success metrics, establishing Monthly Active Bookers as the north star, and direct an 11-phase roadmap in Jira and Confluence through beta and app store release.
- Authored product requirements for a 53-screen iOS and Android app and its backend, including passwordless sign-in, a ticket wallet with door check-in and privacy-safe friend matching.
- Generated two-sided pre-launch traction: aggregated 136 events from 63 hosts, launched the neja.app waitlist and executed an Albanian-language Instagram campaign.
